

## 1. **Greater Southern Area Health Service: Clinical Services Review**

---

Presenting information supplied by Greater Southern Area Health Service (GSAHS) following request for status of clinical services in Bega and Pambula Hospitals, as provided by the General Manager to Councillors last month.

### **BACKGROUND**

A briefing prepared for Councillors by the General Manager, following the resolution of Council on 11 December, 2008, was distributed in March.

10 Having received the clinical services information in relation to the existing Bega and Pambula hospitals and that proposed for the new Bega Valley Hospital, it is appropriate to make that information available to the public.

Now that the Garling Report on NSW Health has been considered by State Government, I understand the NSW Minister for Health should now be in a position to meet with me to discuss the concerns of the community regarding health services in the Shire as requested by Council last year. I have made arrangements for that meeting.

### **RECOMMENDATION**

20 That the briefing prepared for Councillors, prepared by the General Manager, on the status of clinical services in Bega and Pambula Hospitals, be made available to the public.
