

### **3. Federal Government Regional and Local Community Infrastructure Program Funding**

---

The progress of Council's 29 projects under the Regional Local Community Infrastructure Program is by way of regular report to Council. This report is the second in a series of project progress reports.

**Acting Group Manager, Infrastructure Waste & Water**

#### **BACKGROUND**

10 At the Council meeting there will be a presentation (including digital photographs) on the progress of each project. A status spreadsheet will be available on Council's website for public information.

At this stage of project implementation, the stakeholder consultation process is working well.

#### **ISSUES**

##### **Asset**

Coordination of materials and services supply quotations is subject to some minor timing difficulties being encountered by the project coordinators.

#### **CONCLUSION**

20 These projects continue to enjoy enthusiastic community support and are proceeding largely on target. The first milestone report to our funding partner is due at the end of May 2009.

#### **RECOMMENDATION**

1. That Council note the status report on the Regional Local Community Infrastructure Program projects.
