INFORMATION For the purposes of public safety, please provide what type of clinical waste will be generated by the applicant. Clinical waste means any waste resulting from medical, nursing, dental, pharmaceutical, skin penetration or other related clinical activity, being waste that has the potential to cause injury, infection or offence, and includes waste containing any of the following:

- Tubing soiled by blood or other body fluids
- Dialysis bag
- Soiled gauze and or bandages
- Incontinence pads
- Other medical waste - please describe

**Note Syringes are not accepted in the red lid garbage bin.
 Syringes MUST be disposed of in a syringe container available at any local chemist.**
