

What can go in

Essentially anything that was once living can go into your FOGO caddy:

Meat (including bones) and dairy

Eggshells

Seafood

Take away food (no containers please)

Vegetable and fruit scraps

Tissue and paper towel

changing the
way we think
about waste...

What can't go in

Plastics, including food
containers

Chemicals

Nappies and personal
hygiene products

Anything recyclable (put
these in your yellow bin!)
